

# Premium bullets TAG<sup>®</sup> & TOG<sup>®</sup> now available in 2 new calibers

BRENNEKE ammunition manufacture is expanding its offer by four new cartridges and two new bullets for reloaders.

A gap will be closed with the introduction of 9,0 g / 139 grs TOG<sup>®</sup> loaded in cal. 6,5 x 55 SE, 6,5 x 57 and 6,5 x 57 R. Thereby an extremely powerful deformation bullet for universal use will be available in cal. 6,5 mm. The Original BRENNEKE Torpedo-Optimal-Bullet (TOG<sup>®</sup>) has been proven in strong hunting practice within the last 16 years. It is the reinsurance for every hunt and available for reloaders, too.

The new products will be available from mid-April onwards.

## 6,5 x 57 TOG<sup>®</sup> 9,0 g / 139 grs

Entfernung/distance (m)	0	100	150	200	300
Geschwindigkeit/velocity/vitesse (m/s)	805	691	656	587	166
Energie/energy/énergie (J)	2.919	2.388	2.153	1.936	1.553
Flugbahn/bullet path (cm) $\oplus$ 100 m	-5,0	0,0	-4,3	-13,7	-49,7
GEE/MRD/DRD* $\oplus$ 166 m (cm)	-5,0	+4,0	+1,8	-5,6	-37,6

\* Günstigste Einschieß-Entfernung / most recommended distance / distance de tir la plus favorable

## 6,5 x 57 R TOG<sup>®</sup> 9,0 g / 139 grs

Entfernung/distance (m)	0	100	150	200	300
Geschwindigkeit/velocity/vitesse (m/s)	774	699	663	628	561
Energie/energy/énergie (J)	2.698	2.200	1.980	1.777	1.419
Flugbahn/bullet path (cm) $\oplus$ 100 m	-5,0	0,0	-4,9	-15,2	-54,9
GEE/MRD/DRD* $\oplus$ 160 m (cm)	-5,0	+4,1	+1,2	-7,1	-42,8

\* Günstigste Einschieß-Entfernung / most recommended distance / distance de tir la plus favorable

## 6,5 x 55 SE TOG<sup>®</sup> 9,0 g / 139 grs

Entfernung/distance (m)	0	100	150	200	300
Geschwindigkeit/velocity/vitesse (m/s)	854	774	736	699	628
Energie/energy/énergie (J)	3.285	2.701	2.442	2.203	1.779
Flugbahn/bullet path (cm) $\oplus$ 100 m	-5,0	0,0	-3,3	-11,3	-42,9
GEE/MRD/DRD* $\oplus$ 177 m (cm)	-5,0	+4,0	2,6	-3,4	-31,0

\* Günstigste Einschieß-Entfernung / most recommended distance / distance de tir la plus favorable

Because of multiple request BRENNEKE will also include caliber 8,5 x 63 REB in its program.

It will be loaded with the lead-free 12,6 g / 195 grs Original BRENNEKE-Alternative-Bullet (TAG®) as well as with the proved 14,3 g / 220 grs TOG®. The market launch is planned for mid-2019, depending on customer orders. The 8,5 mm TAG® and TOG® will also be available for reloaders.

It's the first admission of this cartridge by a well known premium manufacturer. Since its development by Werner Reb over 30 years ago this calibre gained an increasing popularity. The production is a challenge due to the geometry of their outer shell and therefore perfect created for the BRENNEKE ammunition manufacture.

## New BRENNEKE - MANK - Foundation Nature Protection and Hunting

On the occasion of the 35th anniversary as an exhibitor since 1985 Dr. Peter Mank, BRENNEKE's Managing Director and owner, is presenting a new foundation. His extensive commitment of over 30 years as Vice-President of the European Otter campaign (OTTER Center) and as Director of the German Otter Foundation was a major contribution in rescuing this endangered animal. Actually the otter population in Germany recorded an considerable increase. He wishes to continue this success with the newly founded non-profitable-making BRENNEKE-Mank-Foundation Nature Protection and Hunting. One of the main focuses will be on endangered species and their habitats. Other activities will include supporting firearms training, developing new products, public relations as well as securing necessary investments in the BRENNEKE group.

All donations to the account at Deutsche Bank Hannover (IBAN: DE36 2507 0070 0041 4896 00; BIC: DEUTDE2HXXX) will enable these tasks.
